Game Instruction

## Game Setup

1

Shuffle the Winning cards and deal 1 to each player.

2

Deal 1 Recycle Right card to each player.

3

Shuffle the Action cards, Trash Overflow cards and remaining Winning and Recycle Right cards together and deal 7 cards to each player.

The remaining cards will form the Draw pile.

4

Pick one player to start the game!

## How to Play

- 1 Draw a card from the Draw pile at the start of your turn.
- 2 During your turn, you can:
  - ★ Play any number of Action cards. All played cards will go in the Discard pile.
  - ★ Skip without playing any cards.

3 You can have max. 8 cards on hand at the end of your turn; additional cards will need to be discarded.

4 If you draw a Trash Overflow card, you will be eliminated unless you play a Recycle Right card.

Insert the Trash Overflow card back in the Draw pile and shuffle. Place the Recycle Right card in the Discard pile after use.

5 When the Draw pile runs out, shuffle the Discard pile to form the new Draw pile.

6 The game is won when someone:
 

- ★ collects all 4 unique Winning Cards, OR
- ★ is the last player standing!
